### **The Bluegrass Situation: Music Interview**

["Eric Gibson's Family Shares Autism Story in New Film"](#)

By Craig Shelburne

In recognition of Autism Awareness Day, the Bluegrass Situation drew attention to *The Madness & the Mandolin*, a new documentary about Kelley Gibson.

The son of The Gibson Brothers' Eric Gibson and his wife, Corina, Kelley received an autism diagnosis as a boy. Since that time, the family has faced its shares of challenges and breakthroughs, which are documented in the film by producer/director Dr. Sean Ackerman. The filmmaker answered some questions by email about 'The Madness & The Mandolin'.

### **End Note**

*There's an amazing amount of original music recorded and videos produced by Capital Region musicians, bands, and artists every year. By no means is these listings all-inclusive. If you know of a release or video you loved but was inadvertently overlooked, let me know. You can reach me at [apgregory65 at gmail dot com](mailto:apgregory65@gmail.com)*

*If you or your band have an upcoming release planned, please visit [The Local 518 Show](#) for airplay submission guidelines.*

*Since 2012, it's been an eye-opening experience putting these quarterly reports together for the fans, supporters, and most importantly the creators of original music in the Capital District (and just a bit beyond).*
